SUMMARY

I am a motivated technology enthusiast with an interest of turning innovative ideas into functional projects. I qualified for the second round of Smart India Hackathon 2025 and ranked 10th in a college CTF competition. My experience includes developing the LockAI system, implementing real-time Geo-fencing, working with Blockchain technologies- Ethereum Sepolia and Polygon Amoy testnets for different applications- micro-credential aggregator, decentralized health data vault and dairy supply chain traceability. I am also a member of the Coding Club of RVCE and ACM Student Chapter, RVCE, seeking to contribute to impactful technical innovation. Interested in competitive programming to strengthen problem solving skills and concepts of data structures and algorithms.

SKILLS

- Programming Languages: C, C++, Python, HTML, CSS, JavaScript.
- Development: React, Flask.
- Database: MongoDB, Firebase, Supabase.
- Relevant Software: Git, GitHub, VS Code, Cursor.

PROJECTS & HACKATHONS

Hackemon (CTF) Jul 2025

- Secured 10th position in the Final Round (Top 10 out of 20+ qualifying teams) of the 24-hour Capture The Flag (CTF) competition.

LockAI Aug 2025

- Engineered "LockAI," an intelligent door lock system that uses an on-device Machine Learning model to recognize and classify multi-touch finger patterns in real time using ESP32 microcontroller.

Yatra Suraksha (Smart India Hackathon, 2025) Sep 2025

- Developed and implemented the Geo-fencing feature for a tourist safety system leveraging AI, Geo-Fencing, and Blockchain-based Digital ID.

UniCred (Vision 2047 Hackathon) Dec 2025

- Built a secure multi-portal job and credential platform using React/Vite/Tailwind and Flutter with Supabase Auth/RLS, PostgreSQL, blockchain-anchored verification, and AI prompt-based candidate filtering using vector search technique.

EDUCATION

School Jun 2012 - May 2022

Carmel School (ICSE)

- Percentage: **99.40%** (All India Rank 3 - Class 10 Board Examination)

Pre-University Education Jun 2022 - Apr 2024

RV PU College

- Percentage: **99.33%** (Karnataka State Rank 3 - 2nd PU Board Examination)

Bachelor of Engineering Oct 2024 - Mar 2028 (Expected)

RV College of Engineering

- CGPA: **9.90** (First Year)

ORGANIZATIONAL EXPERIENCE

AI Essentials Workshop May 2025

- Spoke on AI tool selection and successfully assisted students in exploring the practical application of AI for coding and productivity tasks.

Horcrux Hunt Aug 2025

- Co-organized and anchored "Horcrux Hunt" a Harry Potter-themed, mobile-only CTF competition for college freshers. Designed challenges covering Cryptography, Steganography, and OSINT.
